Sola Hevi Duty S4K & S5K Online Double Conversion UPS for High Availability Emergency Power Battery Backup

Maximum Protection for Mission Critical Network Applications

The Sola Hevi Duty S4K and S5K Online Double Conversion UPS systems are designed for providing power conditioning and emergency backup power backup for computers, network servers, routers, storage devices, radio and telecommunication systems, industrial controllers and other sensitive electronic equipment.

The Sola Hevi Duty UPS provides ultra reliable, advanced power protection by providing power conditioning and zero transfer time UPS solutions for small and medium size computer and data centers and mission critical applications.

Providing Power Protection with New Electrical Sine Wave Output

Sola Hevi Duty UPS Systems provides the highest level of power protection by providing a new electrical sine wave for your connected equipment. Its online, double conversion technology isolates IT equipment from power issues that may effect your equipment data room, building or entire block. Protection from low voltage brownouts, spikes or complete blackouts, all encompassed in one solution!

Competitively priced, now you can have Sola Hevi Duty engineering and quality in these compact 2U, 4U or 6U high UPS chassis that is designed for 19” or 23” equipment racks or floor or shelf mounted installation. With the Sola Hevi Duty UPS power protection systems you will always be ready for the next power issue.

To ensure its reliability, Sola Hevi Duty provides a two year factory replacement warranty for all of the S4K family of products. The S4K units are 2U (3.75”) in height with the exception of the 6.0kVA UPS, which utilizes a 4U chassis and the 10.0kVA with its 6U chassis. The S5K modular UPS includes an on-site 2 year warranty
