Liebert XDF Air Conditioned Computer Cabinet Environmental Protection by Emerson Network Power

Environmental Protection for High Density Servers

With the XDF Air Conditioned Computer Cabinet, Emerson Network Power / Liebert has solved the problem of how to protect high density computer servers, VoiP and other networking equipment when placed outside of the data center.

With the XDF Air Conditioned Computer cabinet, you have a 36U integrated, sealed, computer cabinet with a 4.0 ton air conditioner, capable of cooling up to 18.0kVA / 14.4kW of 19” wide rack mounted equipment.

With this portable, completely self contained computer cabinet, you can now have Liebert engineering and quality. Designed for high density server deployments where security, UPS and environmental protection are required. Ideal for company campus locations, factory floors or simply to provide needed space without expanding your existing server room.

The Liebert XDF air conditioned computer cabinet provides an economical equipment protection solution. Simple installation is provided by this factory assembled computer cabinet with its integrated 4.0 ton air conditioner

**Liebert’s XDF Air Conditioned
Computer Racking Solution**

Emerson Network Power / Liebert XDF Computer Cabinet Features

Air Conditioned, Temperature Controlled Cabinet
4.0 Ton / 48,000 BTU Integrated Air Conditioner
Integrated Single Phase or 3 Phase UPS Protection
Insulated, Gasket Sealed Cabinet and Doors
Equipment Security – Lockable Front and Rear Doors
36U / 5 Feet of Equipment Racking Space
Protection from Overhead Sprinklers
Wide Area Network Communications

18.0 KVA Cooling Capacity
Portable Cabinet Design
Power Conditioning & Protection
Backup Cooling Fans
Standard & Managed Power Strips
Casters and Leveling Feet
Adjustable Mounting Rails
19” Configurable Equipment Racks

Cabinet Dimensions, Weight and Racking Capacity:

6 ft. 10.5 in. Cabinet with 36 U of internal rack space
Outside Dimensions: 82.5”H x 35.0”W x 48”D, 800 lbs.
Internal Racking Dimensions: 19”W x 32.1”D

For additional information and specifics on the engineering of this solution into your facility, please call the Scott Batteries office.

Company Information and Profile: Scott Batteries, provides batteries and critical power solutions for UPS, telecommunications, emergency lighting and other emergency power applications. The company’s products and services are engineered for those with the responsibility of implementing, maintaining and supporting mission critical applications. Associated services of sales engineering, equipment diagnostics, installation, equipment relocation, and replacement battery solutions are also provided.

Scott Batteries provides additional solutions, including integrated battery, DC rectifier and battery chargers solutions for customers requiring 12 volt, 24 volt, 48 volt and 120 volt service applications.
