## **Liebert GXT2 2.7kVA 208VAC Online Double Conversion UPS**

### **Maximum Protection for Mission Critical Applications**

The Liebert GXT2 2.7kVA Online Double Conversion UPS is designed for power conditioning and providing emergency power backup for servers, Cisco switches, routers, storage devices, radio and telecommunication systems, industrial controllers and other sensitive electronic equipment requiring 208VAC or 240VAC uninterruptible power.

The Liebert GXT2 UPS provides ultra reliable, advanced power protection by providing power conditioning (+ - 3%) and zero transfer time to battery emergency power solutions for your mission critical applications.

#### **Power Protection with New Electrical Sine Wave Output**

The Liebert GXT2 UPS provides the best power protection in the industry by providing a new electrical sine wave for your connected equipment. Its online, double conversion design isolates your equipment from power issues that will effect its operation. Protection from low voltage brownouts, blackouts and spikes are all encompassed in this one solution!

This unit is compact, with its 2U high chassis that can be a free standing floor mount design or installed in a 19" or 23" equipment rack. Unit weight is 75 lbs.

Liebert has designed the 2.7kVA GXT2 UPS systems to provide the highest level of reliability for your network, communication and industrial equipment infrastructure requirements. The unit has extended runtime battery cabinets to extend its runtime while on battery for applications that require this type of equipment support. The UPS utilizes a NEMA L6-20P input plug and provides with two (2) NEMA L6-15R and one (1) NEMA L6-20R receptacles. Additional receptacle solutions are available. A two year factory warranty ensures its continuous operation.

Rated load carrying capacities: 2700VA / 1890 watts. UPS dimensions: 3.5"H x 24.2"D x 17.0"W.

#### **GXT2 UPS System Features**

Online Double Conversion UPS Protection  
Zero Transfer Time to Battery  
Protection from Brownouts - Power Conditioning  
Rack or Tower Mounting  
Wide Area Network Communications Solutions

Internal Automatic Dynamic Bypass  
External Maintenance Bypass Switch - Optional  
2U Chassis for Equipment Installation  
Rack or Wall Mount Enclosures Available  
Extended Runtime Solutions

**For additional information and specifics on the engineering of this solution into your facility, please call the Scott Batteries sales office.**

**Company Information and Profile:** Scott Batteries is a provider of batteries and high availability power systems for UPS, Telecommunications, Emergency Lighting and other Critical Power applications. The company's products and services are engineered for those with the responsibility of implementing, maintaining and supporting mission critical applications. Associated services of electrical distribution, equipment diagnostics, installation and equipment relocation and battery testing are also provided.
